

Newport News Public Schools

(High School Name)

(Teacher Name)

Course Overview

AP Music Theory continues to emphasize ear training and principles of harmony for students in grades 10-12. Students are expected to write and harmonize melodies in major and minor keys. Musical form is studied through the analysis of music scores and composition and the keyboard capability extend to performance of simple four-part harmony. Discriminate listening and aural analysis will be included. **The AP exam is required and can result in college credit being awarded and/or advanced standing.** (+1.0 weighted credit)

Objectives of the Course

This course is designed to develop musical skills that will lead to a thorough understanding of music composition and music theory. Students are prepared to take the AP[®] Music Theory Exam. Students planning to major in music in college may be able to enroll in an advanced music theory course, depending on individual colleges' AP policies.

General Course Content

1. Review of music fundamentals, including scales, key signatures, circle-of-fourths, circle-of-fifths, intervals, triads, and inversions.
2. Daily ear training, including rhythmic, melodic, and harmonic dictation.
3. Weekly Sight-Singing using a variety of means to include numbers and solfège for pitches.
4. The study of scales.
5. The study of keys and key signatures as they relate to the scale.
6. The study of scale tonality.
7. The study of modes.
8. The study of intervals and transposition.
9. The study of chords (triads and sevenths including all inversions).
10. The study of cadences.
11. The study of non-harmonic tones.
12. The study of figured bass.
13. The study of two-part counterpoint.
14. The study of four-part harmony.
15. The study of seventh chords.
16. The study of secondary-dominant functions.
17. The study of musical form.
18. The study of common compositional techniques and notation.

The objectives below have been adapted from the Expanded Course Specifications posted on the AP Music Theory Home Page on AP Central®.

Student Expectations and Expanded Course Objectives

1. Students will participate in all classroom discussions and activities.
2. Students will complete all assigned exercises and readings.
3. Students will keep and maintain a Music Theory notebook, which will include class notes, handouts, assignments, listening examples, repertoire lists, etc.
4. Students will study released AP Exams and take practice tests to prepare for the exam.
5. Students will attend one concert each nine weeks and submit a typed paper regarding the concert using appropriate musical vocabulary. The paper should contain general information about the concert, the student's evaluation of the performance (both musically and aesthetically), and specific analysis of three individual selections.

Analysis should include but is not limited to the following:

- a) melodic characteristics (conjunct/disjunct)
 - b) harmonic characteristics (present harmonic idioms)
 - c) rhythm (straight/syncopated)
 - d) texture (homophonic, monophonic, polyphonic, heterophonic)
 - e) timbre (instrumentation, tone color)
 - f) dynamics (dynamic contrasts)
 - g) tempo (tempo changes)
 - h) meter (duple/triple, simple/compound, regular/irregular)
 - i) mode (major, minor, modal, atonal)
 - j) form (binary, ternary, sonata, rondo, etc.)
 - k) articulation (legato, staccato, etc.)
6. Students will submit a final composition at the end of the course based on teacher-assigned form and content. Other compositions will be required to demonstrate understanding and synthesis of concepts presented throughout the year. These compositions will include the following forms:
 - a) binary
 - b) ternary
 - c) sonata
 - d) major mode
 - e) minor mode
 - f) two-part counterpoint
 - g) three-part counterpoint
 - h) four-part fugue with subject, countersubject, and free improvisation
 - i) modulation from one tonal center to another through the use of a pivot chord
 - j) the use of the whole-tone scale
 - k) the use of the chromatic scale
 - l) the use of tone row or serialism
 - m) the use of a church mode

The student will:

- demonstrate through aural and written exercises an understanding of the four properties of sound: pitch, intensity, duration, and timbre.
- define and identify common tempo and expression markings.
- demonstrate through aural and written exercises an ability to identify and use pitch notation in treble, bass, alto, and tenor clefs.
- demonstrate through aural and written exercises an ability to identify and use accidentals, intervals, notation of duration, irregular division of notes, meter signatures, and dynamic markings.
- recognize and analyze scale degree terms to include tonic, super tonic, mediant, subdominant, dominant, submediant, subtonic and leading tone.
- be cognizant of accepted usage of notational practices, historical through present.
- demonstrate ability to hear, play, and write diatonic scale, major and minor scales (ascending and descending).
- correctly use key signatures and relate key relationships both parallel and relative.
- recognize other scales and modes to include but not limited to chromatic scale, whole tone scale, pentatonic scale, etc.
- differentiate through aural and written exercises music from a variety of historical perspectives including but not limited to the middle ages and Renaissance period, Baroque period, Classical period, Romantic period, Post-Romantic and Impressionistic period, contemporary period, jazz and popular music.
- demonstrate through aural and written exercises applications of aforementioned musical periods in relation to pitch and harmonic practices.
- recognize through aural and written exercises the use of consonance and dissonance.
- hear, write, and play major, minor, and perfect intervals in all keys (ascending and descending).
- hear, write, and play augmented and diminished intervals, enharmonic intervals, inversions of intervals, and compound interval.
- Identify aurally, visually, and in writing the following: modulation, transposition, melodic and harmonic rhythm, sequence, imitation, ostinato, augmentation, diminution, inversion, retrograde, and fragmentation.
- demonstrate through aural and written exercises understanding of invertible counterpoint.
- demonstrate an understanding of the history of tuning systems, Pythagorean tuning through equal temperament.
- write all major and all three forms of the minor scales both ascending and descending.
- write in the modal system.
- develop speed and accuracy in identifying and spelling key signatures, scales and intervals, both aurally and in writing.
- use interval and clef transposition methods to and from concert pitch for band or orchestral instruments.
- define, play, write, and hear harmony, chord, triad, triad roots, major, minor, diminished and augmented triads, scale degree names, primary triads, and seventh chords.
- detect pitch and rhythm errors from given aural excerpts using written scores.
- use triads on scale tones, triad inversion, triad positions, analysis symbols, figured bass, and popular music symbols.
- write, hear, play, and recognize by sight perfect authentic, imperfect authentic, half, Phrygian-half, plagal, and deceptive cadences.

Course Planner

This guide is only approximate as classes may move at a variety of paces from one year to another. Written homework and reading assignments are given at each class meeting.

Music In Theory and Practice = MITAP

The following outline is based on the 18-week semester:

Week Content Chapter/Activities

First Nine Weeks*

Weeks 1-2

Understanding Sound: Four Properties of Sound
Fundamental Review: Notation, Scales, Clefs, Meter, Expression, Tempo, Rhythm
Historical Perspective and Evolution of Music Notation
MITAP Chapters 1-2

Weeks 3-4

Scales (Major/Minor), Scale Degrees, Tonality, Keys, Modes
Intervals: Melodic and Harmonic
Introduction to Ear Training: Melodic, Harmonic, Rhythmic Dictation
Introduction to Sight Singing
Tuning Systems
Historical Perspective and Evolution of Music Notation as it relates to studied literature
Basic Methods of Transposition
MITAP Chapters 2-3

Weeks 5-8

Intervals (Perfect, Consonance, Dissonance), Harmony, Transposition, Chords and Inversions, Popular Chord Symbols, Roman Numerals and Figured Bass
MITAP Chapters 3-4, Appendix C

Week 9

Review and 9-weeks test.

Second Nine Weeks*

Weeks 1-3

Cadences, Non-harmonic Tones, Phrases
MITAP Chapter 5

Week 4

Diagnostic AP Music Theory: mock AP testing, test and review previous AP Exams

Week 5

Melodic Organization: Motives, Sequences, Melodic Periods
MITAP Chapter 6

Week 6

Texture and Textural Reduction: Density, Types of Texture, Tonal Support Techniques, Imitation, Ostinato, Augmentation, Diminution, Inversion, Retrograde and Fragmentation
MITAP Chapter 7

Weeks 7-8

Voice Leading In Two Voices: Counterpoint, Invertible Counterpoint, Intervallic Movement
MITAP Chapter 8

Week 9

Review for Semester Exam

SEMESTER ONE EXAM

Third Nine Weeks*

Weeks 1-3

Voice Leading in Four Voices: Chorales, Stylistic Practices and Exceptions
MITAP Chapter 9

Week 4

Diagnostic AP Music Theory: mock AP testing, test and review previous AP Exams

Weeks 5-8

Harmonic Progression and Harmonic Rhythm: Progressions, Secondary Dominants
MITAP Chapter 10

Week 9

Review and 9-weeks test.

Fourth Nine Weeks*

Week 1

Dominant Seventh Chords, Leading-tone Seventh Chord, Non-dominant Seventh Chords
Chapters 11-13

Weeks 2-4

Modulation, Secondary Dominants and Leading Tone Chords
Chapters 14-15

Weeks 5-6

AP Music Theory Review for AP Test

Weeks 7-8

Completion of Composition Project

Week 9

Composition Performances and Exam

SEMESTER TWO EXAM

*Approximately 30 minutes of sight-singing are incorporated into instruction on a weekly basis and sight-singing is tested bi-weekly, at the end of each quarter, and at the end of each semester. In addition, listening activities appropriate to the unit being studied are completed each week.

Students practice single-line, two-part, and four-part dictation independently and in groups, utilizing CDs, keyboards, and a variety of technology. Quizzes are administered at the end of each concept or unit. Exams are given at the end of the quarter and semester.

Students are required to create an original composition that is performed in a public venue at the end of the second semester. The composition must utilize live soloists, ensembles, and/or teacher-directed components.

Students are expected to actively participate in classroom discussions and demonstrations each week. Students are required to keep a comprehensive theory notebook and/or a student portfolio which contains all handouts and returned/graded homework, quizzes, and exams. Students will demonstrate musical concepts using a variety of technologies including but not limited to: SmartBoards, overhead projectors, music notation software, Musical Instrument Digital Interface (MIDI), PowerPoint presentations, and appropriate use of the human voice and a variety of instruments.

Teaching Strategies

Developing and applying music vocabulary is utilized throughout the course. Analysis and composition is critical in understanding standard music theory protocol.

Original compositions are employed as a means by which students can demonstrate their understanding of a particular concept. Students benefit from individual and peer reviewed work. A variety of activities and assignments allow the student to express individual creativity.

Student Evaluation

The final grade for each nine weeks is determined as follows
:

SS/MD = Sight Singing & Melodic Dictation	
*Assignments (Daily and Homework)	30%
SS/MD=15%, Written=15%	
*Quizzes	20%
SS/MD=10%, Written=10%	
*Test	40%
SS/MD=20%, Written=20%	
Original Compositions	10%

*Each one of these components will include Sight Singing, Dictation, Listening and Analysis.
